Oysters

Maestrale | Golfo di Olbia, Sardegna | cal. 3

€ 5,00

Now a classic of Sardinian oyster farming, in particular of the Gulf of Olbia, where the traditional floating pockets allow a process that allows the oysters to obtain a well-pearlized shell with a rich, vegetal and persistent fruit.

La Perla del Delta | Sacca degli Scardovari, Veneto | cal. 3

€ 7,00

It is the perfect combination of French savoir-faire and the uniqueness of the Scardovari lagoon, a Unesco heritage site and biosphere reserve. The oysters are glued one by one by hand onto the ropes, which are connected to a winch that raises them, effectively reproducing the effect of the Atlantic tides on the oysters. We thus obtain a smooth, white, incredibly thick and hard shell, with an internal mother-of-pearl that borders on perfection. On the palate it has abundant, iodized and crunchy meat. Iodine gives way to the increasingly prevalent sweetness with a long and complex vegetal persistence.

Spéciale Pleiade Poget, Marennes Oleron, Poitou-Charente | cal. 3

€ 4,50

It is certainly one of the most renowned oysters in France, already awarded multiple medals in Paris. The shell appears very thick, hard, homogeneously mother-of-pearl. It is an oyster that makes balance its strong point. In the mouth it is crunchy and compact, with a balance of flavor, vegetal aromatic persistence and non-invasive sweetness.

Royale David Hervé | Marennes Oleron, Poitou-Charente | cal. 3

€ 6,00

It is considered the Rolls Royce of oysters. It is bred for 4 years in the sea, in the best places for the development of a product of incredible quality. The last 18 months are spent on 1 specimen per m2. The shell is extreme, hard, compact, concave, rounded, pearly inside in a homogeneous manner. On the palate it is very persistent with vegetal and distinctly nutty hints.

Ostra Regal | Bannow bay - Dundrum bay | cal. 3

€ 4,50

It was created to be a product of excellence. The oyster is raised on tables in a few a method that we can define as classic. The shell has a teardrop shape and is very solid and mother-of-pearl, characteristic of large oysters. On the palate it is contrasting, iodine and sweetness blend continuously.

Ostra Regal Sélection Or | Bannow bay | cal. 3

€ 7,00

It represents the excellence of excellence. It is the selection of the most beautiful Ostra Regal, with the highest fleshiness index, minimum 18%. A golden nugget. The shell takes the appearance of a drop of water and thanks to time and the cold waters of Ireland, it becomes stronger and its mother-of-pearl becomes thick, very white. The taste is strongly sweetened and the consistency is creamy. Its mineral persistence on the palate prolongs the pleasure and makes it ideal for unusual combinations. The edible gold applied certifies the great value of this product.
